DESCRIPTION

Enjoy the warmth and beauty of exterior wood shutters. Our wood shutters are hand crafted from the most popular wood species and can be painted. These shutters can also be mounted with common fasteners for a fixed installation, or you can order functional hardware to allow your shutters to open and close. If authenticity is important to you, as well as a low cost solution, these wood shutters are a perfect fit.

NOTE: Any wood shutter over 23 1/2" wide will contain a backstrap which keeps the louvers from bowing outward overtime. The backstrap attaches to the back of the shutter and is not visible from the front once installed. It is no additional charge and it is required to keep the shutters under warranty.
