

3 1/2"H x 14"W (24 Sq. In. Venting Area) Vulcan Fire Stopping Reverse Tab Eave/Soffit Vent, Galvanized Steel

- Vulcan Fire Stop Honeycomb Matrix with Screen Mesh built into galvanized steel frame
- Net Free Vent Area: 24 Sq.in.
- Vulcan Vent matrix is 1/4" hexagon expanded aluminum, coated with an intumescent coating. The coating swells up when exposed to high temperatures and closes off the cells, effectively blocking off fire & ember intrusion
- The Vulcan Vent was designed to meet the new California Building code SFM 12-7A of the California Wildland-Urban Interface fire code program

DESCRIPTION

To effectively cool the attic outside air needs to circulate through it. In the evening when excess heat is stored up inside the attic's insulation, it's critical to quickly release that heat for the night to save on cooling costs. Eave vents add critical ventilation to your attic by allowing air to enter through them and out the upper gable vents.
