

## 14"W x 24"H (102 Sq. In. Venting Area) Vulcan Fire Stopping Gable Vent Surface Flange, Galvanized Steel

- Vulcan Fire Stop Honeycomb Matrix with Screen Mesh built into galvanized steel frame
- Net Free Vent Area: 102 Sq.in.
- Fits 14" x 24" custom out. Flush Front Mount is ideal for retrofit, wood, wall, cement fiberboard walls etc. Works in both retrofit or new construction
- Vulcan Vent matrix is 1/4" hexagon expanded aluminum, coated with an intumescent coating from Firefree Coatings Inc. The coating swells up when exposed to high temperatures and closes off the cells, effectively blocking off fire & ember intrusion
- The Vulcan Vent was designed to meet the new California Building code SFM 12-7A of the California Wildland-Urban Interface fire code program

### DESCRIPTION

We recommend a combination of vertical and horizontal vents. On hotter days, lower horizontal vents will intake relatively cooler air when

there is sufficient venting above the horizontal (soffit, eave, continuous) and exhausts hot air from the attic through vertical gable and dormer vents.
